

Any VRS should be able to functions just like telephone to be able to access to anyone or business of their choices not restricted to one operatings. We need to think of varies of things and not allow one of company becoming tranny (to control of the options). We have the rights just as you all hearing people to access with telephone. Thank you for attenting to this situations. I had to order another VRS machine in order to access better interpretor services. I wishes that I could have just one machine than clutering up my home place with varies machine in order to communications. thanks, have a great day. Sincerely Dana Hall
